Year 6 Autumn 1 2020

For the love of reading

Trash!

Children explore the real world issue of dumpsites. Set in an unnamed Third World Country, three children, who make a discovery in a garbage dump, soon find themselves running from the police.

Geography: Are we damaging our world?

Key Vocabulary:

Sustainability

Endangered

Conservation

Renewable and non-renewable energy

Wave energy

Geothermal energy

Biodiversity

In this unit, children will consider if we are damaging our world and how we can protect it. The children will investigate energy production, the oceans and minerals, as well as conducting an enquiry into how the school can become more sustainable.

Cross Curricular links:

English: Create a newspaper article to explain, in character as a journalist, how dumpsite children live.

Computing: Using simple coding and programming.

History: Learning about the ways in which the planet is affected by human action, both historically and in the present day.

Maths: Learning to use data from world organisations and interpreting this data.
