Learning Planner

Nursery Autumn 2 2020

For the love of reading

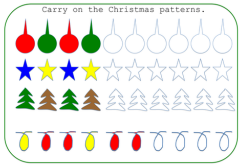

STICK MAN

As a class, we will be reading 'Stick Man' by Julia Donaldson. We will be exploring the rhyme within the book and learning what it means when words rhyme. The children will be immersed in many activities focussed around the book, including role play, story retelling and creating models of Stick Man in Art.

Marvellous Mathematicians

We shall be continuing on our number journey, embedding the numbers 1-5, as well as extending learning up to the number 10. The children will be learning that the final number they count provides the *total*.
In addition to this, children will be introduced to repeating patterns and explore how to continue these.

Winter Wonderland

Key Vocabulary:

Frozen Freeze
Frost Ice Icy
Shiver Cold Winter
Snow Melt Arctic
Antarctic Season
Festive

As we begin our 'Winter Wonderland' topic we will discuss the seasons and investigate the types of clothing needed for the different types of weather. The main focus will be based around Winter and our role play area has been magically transformed into a winter workshop. The children will be exploring the phenomena of freezing and melting and link this to the weather we are experiencing outside. In art sessions, the children will create simple representations of artic animals and learn about their environment as well as creating a firework night sky picture, exploring colour mixing.
