Learning Planner

Year 4 Spring 2 2021

For the love of reading

The Uncommoners — The Crooked Sixpence

In English, we will be going on an adventure with Ivy and Seb to the strange and wonderful world of Lundinor where common objects are not as they seem. The children will be reading all about Ivy's quest to unpick the mystery of her family and set off on a race against time to rescue them. They will also be using the text to create uncommon adverts, design hobsmatch outfits, write about their travels through suitcases and even compose their own short story set in Lundinor.

Marvellous Mathematicians

In Maths, we will be continuing to deepen the children's understanding of fractions and decimals and to apply to reason and solve problems. We will also continue to revisit and recap previous areas of arithmetic and key number skills.

We will be working hard on our times tables, learning the 9 and 12 times tables.

History — The Ancient Egyptians

Key Vocabulary:

- Archaeologists
- Civilisations
- Excavations
- Hieroglyphics
- Inscriptions
- Mummification
- Pharaoh
- Pyramids

How much did the Ancient Egyptians actually achieve?

This half term, Y4 will explore who the Ancient Egyptians were, what they did and discuss whether Ancient Egypt deserves its reputation as one of the most important early civilisations. They will understand how our knowledge of the past is constructed from a range of different sources.

Cross Curricular links:

Design and Technology: design, build and evaluate their own sarcophagus and Egyptian jewellery.

Science: Looking at building structures and evaluating their effectiveness.

English: Writing a report on the River Nile.

RE: Understanding different religious beliefs.
